- PALM BEACH
  AFL-CIO
- AMALGAMATED
  HEAT, IRON WORKERS
- UNITED PUBLIC
  WORKERS
- AFL-CIO COMMUNITY
  SERVICES
- CTA
- SEIU
- AMERICAN
  MACHINISTS

Working Together.
We SEE a Strong Partnership.

United Way of Palm Beach County is proud to work with our local AFL-CIO Unions and make an impact in our community together!

- Assist workers and their families providing information and referrals to available local services and organizations.

- Educate and strengthen unions and the Central Labor Council through strategic partnerships involving apprenticeship, Union Community Activist Network (UCAN) and more.

- Union members represent skilled workers from across all industries, including both public and private sectors. They bring a wide variety of expertise and have the power to bring together community, government, and businesses to create and promote access to good jobs.

- Service the community through a variety of fun and family friendly volunteer opportunities, community projects and fundraising campaigns.

VOLUNTEERISM

“At a time when far too many families are struggling to make ends meet, children aren’t receiving the education they need to succeed, and not everyone has access to quality, affordable healthcare, partnerships with organizations such as the United Way increase our ability to make meaningful improvements in the lives of workers and their families.

- Richard L. Trumka, President, AFL-CIO

History has shown union members are loyal contributors to United Way, volunteer at a higher rate than the general public and have a higher rate of repeat volunteerism.
